

Seven Bays Newsletter

June, 2016

Updates:

- Road Productions Inc. has completed sealing roads in the Airport addition, Plats 3 and 4. Plats 1 and 2 will be completed next year. The board discussed having driveway approaches sealed this year, but our budget would not support the expense. Whether approaches are sealed next year will depend upon a budget being ratified to fund sealing”.
- Main lift station is close to completion.

News:

- Call your plat representative if you need combination to the pool. It is open and looking great!
- We are putting a story of Seven Bays together with photos of the past. So if you have any photos you may want to share call Kaye. They may be just what we are looking for. All photos will be returned.
- Please, for those renting, make sure your renters are reminded at the time of renting, the restrictions on fire pits current according to Lincoln County restrictions at that time.

Have a safe and fun 4th of July, remembering NO FIRE WORKS IN SEVEN BAYS.
